

## TRY THIS AT HOME

Thank you for spending a day with us learning about Information Technology at Red River College.

If you want to do all of the activities again, all of the files you will need are on this flash drive. Here are the folders on this drive and what they are for.

01 Web Programming  
02 Database  
03 Networking  
04 Internet Security

Inside of each of these folders is a **Notes** folder. Find a copy of each session's instructions inside each of these folders.

NPP

Notepad Plus is a free and simple text editor for you to use.

ZWAMP

This contains the code needed to publish your web site and to run the database.

ZWAMP Documentation.zip

More instructions on how to use ZWAMP and other cool things you can use it for.

ZWAMP Server.zip

A zipped (compressed) copy of the ZWAMP folder. It may be faster to copy this to your home computer than trying to copy the uncompressed ZWAMP folder.
